

American Society of Pharmacognosy (ASP)

ASP Summer Research Fellowship

About the ASP: The ASP is one of the leading societies in the world devoted to the field of “natural products”, and encompasses a broad array of topics (chemistry, biology, microbiology, ecology, drug discovery) that are used as tools to study living systems in the natural world. For examples of cutting-edge research, see our field’s flagship journal: *Journal of Natural Products*.

About the Summer Research Fellowship (SRF):

To address inequities facing communities that have been marginalized in the pursuit of graduate school and professional careers in the natural product sciences, we offer a 2.5 month summer research fellowship to support students in lab-based research under the supervision of an ASP faculty mentor. ASP summer research fellows will receive a total stipend of \$5,000 for the summer period and will participate in lab research and a series of weekly online training and professional development workshops led by a team of ASP faculty. We expect to support several summer research fellows each year.

Eligibility: ASP summer research fellowships are open to students who identify as Black, Indigenous, and/or Latina/o/x. Students should be enrolled full-time in an undergraduate program at a college or university in the United States (including Puerto Rico and other US territories), and be majoring in chemistry, biochemistry, biology, or a biomedical science field. Mentors must be ASP members (*note: free ASP membership is offered to all students and faculty at majority minority serving institutions*). We recognize the interconnectedness of social categorizations such as race, class, and gender, and will seek particularly to support applicants who may be disadvantaged as a result of intersectionality.

How to apply: See <https://www.pharmacognosy.us/asp-summer-research-fellowship/> for complete details.

- 1) Choose a mentor (details in link above).
- 2) Fill out SRF application form.
- 3) Upload transcripts, résumé, and letters of recommendation.

Deadline: Applications will be accepted between February 1 – March 1, 2024, and will accepted on a rolling basis.

Testimonials: See previous SRF recipients talk about their experiences: <https://vimeo.com/654726142>
